Testimonials:

"Hi Duncan,

THANK YOU for keeping the BCC going so strongly this year! ... [We] have been enjoying the contest as a family, particularly the counting of recreational miles - it has encouraged us to be out getting more activity (safely), particularly when our commute has been reduced to the distance from the bedroom to the shower and back to the living room." *Chris Hawkins*

Thurston County Health Dept.

"We've been riding our bikes a lot lately, sometimes for errands but mostly for fun, and it's been cool to log all the miles during our special circumstances.

Thanks,"

Chris Schad

"Hi Duncan, Hope this finds you well. Thanks again for your work on this...its been fun. Have a great week!" *Wade Alonzo* Program Director Washington Traffic Safety Commission

"Please find attached our family's scavenger hunt results. Thanks for running the BCC - even in these crazy times!" **Scott**
