

Maintain On-Time Performance

What does maintain on-time performance mean?

It's critical to keep buses running on time despite changes in traffic. This requires setting aside 0.5% of the operating budget to periodically adjust schedules.

Increasing traffic congestion in the future will lead to increasing delays, and increasing costs associated with those delays, for everyone including transit vehicles.

Intercity Transit can plan ahead for slowing travel times by setting aside a specified percentage of the operating budget each year for one-or-two schedule adjustments. This would allow Intercity Transit to put additional buses into service on busy routes and reduce wait times for riders.

Allocates 0.5% of operating budget

Adjusts schedules periodically

Keeps buses on time

Accommodates changing traffic

Plans ahead

What are the benefits?

Establishes a savings account for on-demand service additions

Provides flexibility for changing operating conditions

What are the costs?

0.5%

Annual operating costs

None

Capital costs
