1 FLOOR PLAN
SCALE: 1/8" = 1'-0"

NOTES

POWER & DATA COORDINATION
The customer has the responsibility to have this drawing reviewed by their electricians and telephone/data communications installers prior to the actual furniture installation to determine the extent of potential re-wiring required.

FIELD VERIFICATION REQUIRED
OpenSquare will not be responsible for variations in building plan dimensions occurring as a result of actual construction dimension variances which may affect the placement of furniture and equipment. FIELD VERIFICATION IS REQUIRED PRIOR TO ORDERING FURNITURE.

DRAWING PROPRIETY & OWNERSHIP
The furniture selection and layout of this drawing are property of OpenSquare and may not be distributed or conveyed to third parties without written permission from OpenSquare.

ARCHITECTURAL WALL
OpenSquare will provide detailed drawings including "typical" seismic bracing details. Project specific bracing details and structural engineered calculations' details are not included but may be added for a fee, pending verification of ceiling/plenum conditions. Seismic bracing and structural engineering fees are not included pending verification of building conditions.

COVID - 19
OpenSquare is following guidance provided by the CDC and WHO regarding COVID-19 and how to best mitigate risks. While physical space considerations such as furniture design, specification, and space planning are an important part of the solution for a healthy and safe environment, they are most effective when combined with a holistic approach. Including: Environmental controls (Ventilation, filtration, physical separation, cleaning regimen) Administrative controls (policies, procedures, best practices), and personal protective equipment (mask, gloves, ect.)

EGRESS
For aisle clearance less than 44" or 36" on single aisle access. Reduced aisle widths shown are not recommended for this application by OpenSquare. The customer has the responsibility for review and acceptance of the layout prior to order and any subsequent physical changes required based on jurisdictional requirements.

REDUCED CLEARANCE
For distances less than 42" from a worksurface to another worksurface, furnishings, wall or aisle. Reduced Seat clearance as shown on drawing is not recommended by OpenSquare. The customer has the responsibility for review and acceptance of layout prior to order.

PERMITTING
Submittal and Payment for all permits and all associated fees are the responsibility of the Client and their consulting Architect and General Contractor.
