

Get noticed this season!

Be safe. Be seen.

Be flashy: Flashing lights appear brighter and draw attention faster than steady lights. Add them to shoes, backpacks, coats or jacket sleeves, purse straps and anything else you can think of.

Be reflective: Drivers can see you 500 feet away when you wear reflective clothing compared to just 55 feet when wearing dark colors.

Be bright: State law requires the use of a white headlight and a red rear reflector or tail light when cycling in the dark. Plus, they'll help you see and be seen.

INTERcity TRANSIT

Get a free reflective light at the Olympia Transit Center or on Intercity Transit buses while supplies last.
